# Faculty of Geography The Department of Spatial Planning

#### Scientific field (Frascati Manual)

Geosciences, multidisciplinary

**Environmental sciences** 

Municipal and structural engineering

Environmental sciences (social aspects)

Urban studies (Planning and development)

#### Brief description of expertise

Planning of the optimal use of space - both natural and social resources. Regional development planning in certain administrative unit. Defining the best deployment of settlements, population and material resources and means of work in order to standardize and accelerate socio-economic development. Defining the function of individual settlements, especially the main center of the territory, defining of environmental capacity and space constraints imposed by the need for a healthy environment. Providing conditions for the best infrastructure connections and functioning of communication and connections. Land use planning in line with the needs of the population and possibilities of natural potentials of space. Defining of traffic, land and development policies, infrastructure and urbanization. Aligning of investments and accelerate development of less developed regions etc.

#### Keywords

spatial planning, urban planning, regional planning, sustainable development, environmental protection, environment, regional development

#### Commercial services

Preparation of spatial, regional and urban plans.

Consulting services in the field of spatial, regional and urban planning.

Creating strategic environmental assessments for wide range of plans and programmes.

Development of sectoral studies.

Creating development strategies.

Creating environmental impact assessment for projects.

#### Realized and current projects

#### **A) NATIONAL PROJECTS**
