

Dear Candidate,

The HEPTech Network, a High Energy Physics Technology Transfer Network fostered by CERN (<http://www.heptech.eu>), has the pleasure to invite you to its 3rd Symposium focused on applied physics early stage researchers with entrepreneurial potential.

The Symposium will be held in Bucharest, Romania, from 19th to 25th June 2016 and will be hosted by the Horia Hulubei National Institute for R&D in Physics and Nuclear Engineering (IFIN-HH).

The one-week training programme is designed for researchers with adventurous and entrepreneurial spirit, containing topics including: funding of research, promotion and marketing of research results, intellectual property protection, support of start-ups, investor readiness, to name a few.

Prominent research experts, technology transfer professionals and industrial players will present the various topics and will share their experience.

Exciting social events are envisaged to create a friendly atmosphere and enable networking.

Traditionally, HEPTech will cover the costs of the participants, so take this opportunity and apply!

Please, complete the Application form attached and send it to HEPTech-Symposium2016@cern.ch. Apply for this great opportunity until 28th February 2016. The HEPTech Selection Committee will evaluate your application and inform you about the outcome by 31st March.

The first and the second HEPTech Symposium were held respectively in Cardiff, Wales (2014), and in Prague, Czech Republic (2015). They received an excellent feedback from the participants who valued their new experience as “life changing” and a “brilliant combination between theory and practice”.

Now, it is your chance to become part of the HEPTech young researchers’ community – leave the Lab for a week, grab your rucksack and enthusiasm, and enjoy this unique event!

For more information about the HEPTech Symposium 2015 in Prague, please read the article published in CERN Courier on July 22, 2015. Read [here](#). (page 42)

A video of the 2014 HEPTech Symposium in Cardiff, United Kingdom can be found [here](#), and please visit the 2015 HEPTech Symposium website for more information on that event [here](#).
