

DanuBioValNet RoadMapping Workshop

17th April 2018

Chamber of Commerce and Industry of Serbia

Terazije 23, 11000 Belgrade, Serbia

AGENDA

Moderation: Innovation Center of the Faculty of Mechanical Engineering, Belgrade, Serbia

13.00 Registration and welcome coffee

13.15 Welcome Address

Aleksandar Bogunović, Chamber of Commerce and Industry, Serbia

Aleksandar Sedmak, Innovation Center of the Faculty of Mechanical Engineering, Belgrade, Serbia

13.25 Smart Specialisation Strategy of Serbia and its input to the Phytopharm sector

Prof. Dr. Viktor Nedović, Assistant Minister of the Ministry of Education, Science and Technological Development, Serbia

13.40 Gaps in provision of services related to Phytopharma

Mr. Angel Konakchiev, PhD, Bulgarian Academy of Science, Institute of organic Chemistry - Center of phytochemistry, Bulgaria

13.50 R&D as the base for the successful phytopharmaceutical sector

Prof. Dr Slobodan Petrović, Faculty of Technology and Metallurgy, University of Belgrade &

Vanja Tadić, Ph.D, Institute for Medicinal Plant Research, "Dr. Josif Pančić", Belgrade, Serbia

14.10 Future Trends and upcoming Legislation

Prof. Dr. Ralf Kindervater, BIOPRO Baden-Württemberg GmbH, Germany &

Prof. Dr. Rainer Luick, University of Applied Forest Science, Rottenburg, Germany

14.20 – 16.40 Parallel Breakout Sessions (Including coffee-break)

Introduction to the Goals of the Roadmap, Zorica Maric, ICME, Belgrade, Serbia

Session 1: Gaps in provision of services related to Phytopharma

Impulse: Mr. Angel Konakchiev, Bulgaria

Common gaps of the Phytopharma sector are, among others, the sustainable provision of high quality plant material by cultivation, collection and import; technologies; clinical test; trainings; visibility of the business sector, and other services such as databases. The session tries to elaborate on current gaps and future needs for the phytopharmaceutical sector.

Moderation: Darja Osvald, Anteja d.o.o, Slovenia

Session 2: Missing Links and knowledge development

Impulse: Slobodan Petrović and Vanja Tadić, Serbia

Missing Links in the sector in the Danube region are manifold and are hindering the sector to unfold its full potential. The sector is in need of supporting R&D infrastructure to support farmers & cultivators, but also for high tech applications such as chromatography, genetic markers, etc. This session also regards the linkages within business networks.

Moderation: Zorica Maric, ICME, Serbia

Session 3: Future Trends and upcoming Legislation

Impulse: Ralf Kindervater and Rainer Luick, Germany

To stay competitive in the future, there is a need of understanding the business environment and future perspectives. The sector is highly regulated due to many EU and national regulations that are likely to increase. Further topics are the sustainable compliance with biodiversity standards, traceability of products and long-term relationships. New value-added processes and products for the value chain nodes are of importance in a developed bio-economy, to diversify the local and regional economy. Special emphasis should be taken on social responsibility.

Moderation: Ana Aleksić Mirić, Faculty of Economy, Serbia

16.15 – 16.30 Summary of Results / Break

16.30 – 17.00 Presentation of Results in plenum + Concluding discussion

Project co-funded by European Union funds (ERDF, IPA)
